Ambassador Kennedy: came at 0900 for briefing on the Clark and Doolittle reports. He repeated that he saw no value in briefings and that he thought if the Board was going to operate that way that it would be useless. I suggested to him that a preferable mode of procedure might be for each member of the Board to concentrate on a particular problem and spend sufficient time in Washington to become cognizant of the issues involved and then be able to brief the Board at its meetings. CASSIDY: reported he thought the briefings were well received. He said he thought Lovett and Hull would recommend that National Intelligence objectives be placed in an NSCID rather than a DCID so they would have to receive NSC and Presidential approval. He also said they were still in an exploratory stage as to method of procedure and mentioned that they had sent the President a report which had been acknowledged by the President with apparently an unsympathetic reaction from the President as to any delimitation. Cassidy said he thought the Board or Dr. Killian would want to sit down with the President on this subject.

has been reprimended - in fact, nearly court-martialled - for being frank in their presentation to Ambassador Kennedy. Said that I had not been present for the entire briefing, but that I did not see how the briefors could be criticized for fully and frankly answering questions and that Mr. Kennedy had described the briefing as "excellent." Further, I said that Mr. Wisner had discussed the briefing with me two days before, and I had specifically asked him if he would advise and he said he would. The DCI said he planned to talk to Killian about Lovett doing the DD/P area, that it wouldn't be good if Kennedy were the only one who covered the clandestine services as he was getting old and crochety and had some very fixed views. He said he had told Wisner that he thought a lot of his views about Kennedy were personal dislike, to which Wisner agreed. He said that he thought had perhaps been too low an echelon to give the briefing, and that he would talk to	25X1 25X1 25X1 25X1

Told Norman Paul that I discussed the question of the Legislative Counse job with the Director and that the Director was willing to have him use as his assistant during the next session of Congress to see how it would work out, but after that the Director would be perfectly willing to have Paul go to either ONE or perhaps take over as Chief of the NEA Division.	25X1

Grogan: advised me that he was meeting with the Director and the Deputy Director to talk about the Group Hospitalization contract. He said that he believed some of our employees had written to Jerry Kluttz and that he was reasonably sure that Group Hospitalization had talked to Kluttz. He also said that he thought the publicity would blow over very shortly. He advised me that we had discovered that one of the girls working in Group Hospitalization had offered a list of the names of all CIA employees who had been taking Group Hospitalization to a foreign diplomat and that we had turned over the matter to the FBI. I told Grogan that he should advise the Director that I did not think we should weaken on the decision to cancel GHI and that I would like to be consulted before any change in that decision was made.	1

I raised the question of a retirement provision in our bill and told the Director I thought we should fight hard with the Bureau of the Budget and the Civil Service Commission to get acceleration retirement for our people overseas. I stated that I thought we needed this in order to move senior people out and make way for bright junior officers. General Cabell said that he thought we needed it also so that it would be an incentive for people to serve overseas. I told the Director that there would be a meeting of the Career Council on this and that we would fully brief him following that. I also advised the Director that I was going to follow through on the case and that 25X1 I thought we should exert every effort to bring this man to heal.

The Director asked me to look into our records of Iceland fish because of my recollection that we had indicated a possibility that the Soviet Union might gain strength in Iceland if they get a good contract for fish.

Sheldon: called to say that he was very upset and took a dim view of the method of procedure of the President's Board of Consultants because they had gone to NSA and had seen our people who were assigned out there and asked them a lot of questions concerning liaison in our work. I asked him whether they had received the proper answers. He said that they had. I told him I saw nothing inappropriate in the way the President's Board operated and that I was most happy that they would proceed in that way and get to the working level to ask their questions.

Met with to discuss intelligence studies inasmuch as they are meeting on it at on 13 and 14 July. I made 25X1 the following points:

- 1. that in case of disagreement by the Editorial Board, the decision of the Editorial Chairman, Dr. Kent, should be final;
- 2. that the publication should be classified SECRET, otherwise it would fail in its mission;
- 3. that some attempt should be made to include the IAC on at least an honorary basis;
- 4. that the first issue should not necessarily be linked to the 10th anniversary of the Agency but should strive for perfection and to come out later if necessary;
- 5. that for political reasons they should not worry too much about contributions from Donovan and Truman;
- 6. that I would endeavor to get the DCI to sign the Forward and did not believe a Notice or Regulation necessary.

WHITE called to warn me that the State Dept. had cancelled TRANSFER ALLOWANCES as of 1 May and that we had followed suit and that I would probably get complaints on it.

The DCI said that he was asked the question by DR. KILLIAN as to whether there was any coordination on communications in the intelligence field. Told him I would check it and prepare a reply.

CASSIDY also said that he had mentioned to Dr. KILLIAN the fact that Board members came to Washington, looked at CIA and came up with specific suggestions which were not transmitted to the Agency. KILLIAN suggested that he prepare a list of these which he did and which KILLIAN discussed with the DCI and then handed to him.
LUNCH with WHITE who advised me that CASSIDY had told him that DOOLITTLE was considerably upset with the Agency because rather than reducing in size, as his group had recommended, it had continued to get larger and that DOOLITTLE felt that the Agency had ignored many of his recommendations. WHITE commented that he felt that this meant that the Agency had fewer and fewer friends on the outside.
I told him that I planned to review the case thoroughly and would keep him informed.
came up to ask if I would participate in a presentation to the NATIONAL WAR COLLEGE on 9 September and talk for 45 minutes on the organization and functions and mission of the CIA.

GEN. CASSIDY came over to discuss the meeting of the President's Board in September (see memo on this subject). He also went on to say that the Board was very concerned about the ELINT effort and felt that the AIR FORCE was being non-cooperative. He said that the BAKER COMMITTEE, as well as members of his own organization, had commented on this subject at various stages. The DCI called about the RUSSELL BAKER article for the New York Times.
He asked me to call GROGAN and tell him that he thought the article was too

He asked if I would get together with Grogan and develop some additional
themes for the article. I advised Grogan of the Director's views and of the
fact that he wanted the picture taking session for today cancelled. The DCI
told me he was very concerned about the MANSFIELD briefing abroad and I
reminded him that I no longer had responsibility for Congressional matters.
He said that he thought should seek my advice on overseas briefings

At the Deputies' Meeting GEN. I also advised the Deputies' Meeting that GEN. CASSIDY thought our Semi-Annual Report was excellent. I suggested to the Director and the DD/P that among the South American trouble spots was Cuba and that there was almost constant danger there of a major bloody explosion. I also showed them our portable recording device which we are now using on our field inspections. The Director seemed quite enthusiastic. Suggested it be used more broadly within the Agency.

Showed the DCI the invitation from Princeton and he suggested that I accept and said he saw no reason why the acceptance could not be done officially and by title.

Called SHELDON on the exchange of letters with GORDON GRAY regarding Recommendation #1 and then called COYNE who said he had succeeded in sorting out the various comments and replies and that they now expected a reply from USCIB on December 3rd; a comment by the Special Committee on December 15th; and a report to the President to be made January 1st, probably orally, by DR. BAKER with the Special Committee in attendance. I checked with COYNE on the clearance of GEN. CUTLER for AQUATONE and he said he now had action to set up a briefing for both himself and CUTLER at an early date. I also checked with him on the MARQUIS CHILDS article and he suggested I send over our report although he knew nothing about it.

Lunch with MATT BAIRD at which we discussed the various lectures which I should give to Training and he promised to send over a suggested list of the ones he thought were most important.	25X
MIKE BURKE called from New York concerning the CBS television series. See memo to COL. GROGAN.	25X

Attended Deputies' Meeting at which there was a lengthy discussion on U.S. policy and I strongly advocated a drastic change in U.S. policy away from militarism. This received considerable support.

Called CASSIDY to ask if we could borrow back our file on the satellites which he obligingly sent us. *AMORY called me to point out that several of the people in his immediate office were working on a highly sensitive project for which were not cleared and that if, as part of the DD/I survey, we wished to cover that, that I would have to do it personally.

25X1	Called SAUNDERS re and told him of our discussion. He said because this would help in convincing him that their career preference statements meant something.
	J. C. KING called to say that my paper on CUBA had been very well received at STATE and that they had been thinking of doing several of these things and now would probably proceed to do so.
	ROBERT BEUEL called to see if I could be of assistance in obtaining for the Institute of Fiscal and Political Education a list of anti-Communist organizations in the U.S. I pointed out to him that we weren't the appropriate organization in this regard but that I would be glad to find out where he could get it.
	Talked to EDWARDS about the FBI party.
25X1 25X1	of we called to invite me to a lunch with two of the senior intelligence officers on December 10th.
	ANGLETON called to inquire if I was going to the FBI party and to urge that I talk to TOLSON if I could.
	Attended FBI party and had lengthy conversations with Mr. HOOVER on the subject of liaison between the two organizations and also on the ABEL case. He expressed great disappointment that ABEL had not received the death sentence and stressed the point that he did not know what agreement had been made between TOMPKINS and DONOVAN and said he did not want to know.

21 November 1957

DCI buzzed to ask if I would take his classmate, Mr. CARL MESSINGER, to the Princeton Club luncheon. I told him I would be happy to but it turned out that MR. MESSINGER had other lunch engagement. The DCI said he would like to talk to the Princeton Club. I arranged for him to do so on 20 February to which he agreed.

BAIRD called to tell me in mournful tones that he had caught hell at the DD/S luncheon for the _____ case and asked if I would have _____ come ____ 25X1 over and talk to him, which I said I would.

	very bluntly that they keep out of politics and concentrate on Communism.
	TOM BAILEY of State called to ask whether he or I was crazy and what did I
	mean about January when I spoke to him about January at the FBI party. I told
	him it was a simple case of wrong number.
25X1	had returned to the Army; that he
	believed he satisfied GEN. CASSIDY on the progress on relations between CIA and
	Army and that he was going to the war planning conference on next Tuesday and
	would like my views before he went.

BAIRD called to say that MONDAY, JAN. 6th, would be a good day to take 25X1 the Civil Service Commissioners to Lengthy Deputies' Meeting concerning mainly the NATO meeting in Paris and whether the DCI should be briefed as a member of USCIB on the Robertson report. called to say that HELMS concurred in his coming to the IG Staff and would talk to WISNER about it. RAGNALL called to say that he would be happy to have WHACEL come over and brief me on the Foreign Documents situation. I said I would call him. called to say that the Russian's paper was making the rounds and had gone to the White House and that we might expect calls on it. Took the replies to the NSC into the DCI for signature. He disagreed with reply on Recommendation #1 feeling the language was too blunt in telling the Secretary of Defense what to do and, furthermore, did not show very much action on the part of CIA. 30 November 1957 Covered the DCI's office as he was home ill. Nothing of any importance. 2 December 1957 ^{25X1} (Personnel) called to report the death of Machine Records, Admin. Assistant, GS-7, age 45; died on Saturday of heart attack; her husband is employed in Communications Office. attended Deputies' Meeting for me. Advised that the Director was insistent with SHEIDON that the language on Recommendation #1 not be made any stronger. Gave lecture to Basic Management Course. came in to seek my advice on his future career. He said that ROBERT MURPHY had asked him to come back to State and had indicated that he had the possibility there of becoming a career minister or even an ambassador but that he didn't know what his future was here. I suggested that he have a physical examination to see if he was qualified to go overseas and then talk to FRANK WISNER about his future here.

GROGAN called to ask if I would call CHARLES MacWHORTER in the Vice President's office to see if a French photographer, GERARD DeCAUX, who works for JOUR DE FRANCE, could possibly have time to photograph the Vice President some time before Saturday. Was anxious to make the arrangement. MAC WHORTER advised that the Vice President's schedule was filled but I took the opportunity to get him to come down to lunch next week.	25X1
The DCI rejected for the second time the proposed replies to the NSC on Recommendations #1 and #4 and asked that I develop both of them to a greater degree, add a sense of urgency, and get more accomplishments in them.	
came up to brief me on the action taken which included USCIB appointing an ad hoc committee to study the whole problem inasmuch as they rejected SMELDON's letter to Secretary of Defense based primarily on the fact that said the letter would do no good and said that intelligence communications needed a czar. In addition, an ad hoc committee on communications was established and this group was unanimous in feeling that a national network was needed with one center and one czar and electrical dissemination to all customers. This would require a red line system with override authorities from collection centers and would represent a contribution of facilities. The communicators felt that the three major areas to be studied were those of the recognition of significant intelligence; physical assets; and processing. Communicators also believed that four principles needed to be established: (1) that early warning traffic be identified by the intelligence community; (2) that the geographic area of sources be identified; (3) that there be one addressee in Washington and (4) that one senior intelligence officer be responsible for the entire mechanism.

Meeting of the BUILDING STEERING COMMITTEE at which it was decided that an examination should be made before any decision was made on an internal telephone system. I suggested that they have one system for dialing phones in the building and a separate switchboard and code number for the part of the Agency left out of the building, and that the money they authorize might be put in a separate internal system but used to generally strengthen security.

Suggested that the telephone lines be run in glass conduits which could be easily checked for any evidence of tampering. It was also agreed that the problem of a building for concessions would be studied by the lawyers but that no further action would be taken until closer to building time.

He said he had received an offer from a new organization in Boston which were to be subcontractors of and that it was a job that was exactly down his alley and it offered considerably more money. He said he wanted to get my advice on what I considered to be his loyalty to the Agency, his future in the Agency and his future in OCR. He also mentioned that he had not gotten a Rockefeller award and that this was a factor. I told him that I didn't think he should be too deeply concerned that he was not chosen to be Deputy Assistant Director of OCR, that there were other jobs in the Agency he could do and that he was very highly regarded in the Agency. I did point out, on the other hand, that he might have to be content to stay fairly much in position for several years ahead.

HAL LAWRENCE called concerning the JACK RAYMOND story in the New York Times and said that Dr. KILLIAN and Mr. DEARBORN were considerably disturbed about this and asked if we could check as to the possible source. I advised the DCI and he stated that he had already received a call from Gen. GOODPASTER on it. I also checked with AMORY whose view was that it must have come out of the Pentagon. I advised CASSIDY of this who stated that he had been in HUGH CUMMINGS' office and had heard WILKINSON ask COMMINGS whether this shouldn't be deliberately leaked to the press. I advised the DCI of this and he reported that he was meeting with Gen. GOODPASTER on this subject and that they felt that COYNE should coordinate an Agency-wide investigation.

GROGAN later reported that INS had advised him that the story had been confirmed by them the night before in the State Department. He later advised that the press was now attributing the story to government intelligence. SHELDON advised that the DDCI at USCIB had instructed each agency to conduct its own investigation. I discussed this with COYNE who said he had been conferring with GOODPASTER on the subject. EDWARDS later advised that he had set up a special task force composed of to look into it from an Agency viewpoint.

Met with Gates LLOYD and discussed with him the problem of the psychiatric staff. He agreed to call in Tietjen and ask whether it was true that he had established himself as head of the psychiatric division.

At the Deputies meeting the DCI discussed the agenda for the President's Board meetings. He asked the DDCI to cover NSCID-9 and agreed activities, and the SA/PD/DCI to cover Aquatone. He asked that I ask General Cassidy as to whether the Macy report might come up.

The DCI asked that I make a practice of calling to the attention of the staff meeting any articles that might appear in the public press.concerning CIA.

on contacts with the press and told them that the DCI had instructed him to tighten up the controls. He also said that CBS dinner was now arranged for them to be the host and that apparently a large number of CBS hierarchy would be present. I told him I had only one request in that regard and that was that all of the people going to New York not fly in the same aircraft, and that perhaps two planes should go with the DDCI in one and the DCI in another.

Meeting with the Republican Congressmen of the SOS Club for breakfast. Met with the DCI and DD/S to discuss and revise the letter to the Bureau of the Budget on the training bill. __came in to discuss the progress on NSCID #1 and we talked about his career. I told him that I would try to sound out GEN. TRUSCOTT on his future but that I thought it was to his interest to clarify it at an early date. the reasons behind the Director's concern over the 808 breakfast seating arrangement and who was invited. has the details 25X1 Lunch with KERMIT ROOSEVELT who says that on Project Together with discussed for two hours the work of the International Communist Division with GROGAN called to say that in accordance with the Director's instructions he had given McCAREY of TRUE magazine some material on the Agency and told him that I would talk to him when he was ready and that he could then see the Director for 15 minutes. He also said that the HANSON deal was on and that the Director wanted him to write a book on International Communism to be the counterpart of Mr. HOOVER's book on U.S. Communism. called and we agreed that the FREYLINGHUYSEN lunch for 8 July would still be on and that he would invite AMORY and HOUSTON. He said h25X1 would check with Sen. HOBLITZELL's office and also at 25X1 STEWART called about and said that at the moment they did not office without making one but throught that have a place in the one would develop in a matter of weeks. I also urged him to look into the international possibilities inasmuch as I thought there would be no problems about custody of the children.

as I considered the case system one method of measuring our workload. I said that when an individual first came to them and they decided that it would be a case, they should ask their secretary to get a case number from this office so that the name could be recorded, but that their secretary should maintain the case file until the case was closed. I pointed out that there were several categories of cases, namely perennial cases about which we notified General Counsel, Security and Personnel each month; additional items on old cases; and new cases. I said that I hoped that they would use the quarterly report as an incentive to close out their cases, particularly if they had been continuing for some time. I said that we would include selection out cases if the case was appealed to us, regardless of whether the appeal was at the specified time. I pointed out that they often had other things to do which go in the quarterly report, specifically stating that such matters as reviewing the use of retired officers was a project which we should report on periodically. I concluded by indicating that I thought the quarterly report was a valuable management tool to record the work of this staff and that it would indicate whether the approximately that the staff costs the Agency, and thus the tax payers, each year was being well spent.

I pointed out that I had participated in forming the regulation which said non members of the Career Staff would not receive language awards. He went on to say that SEN. LANGER wanted a thorough investigation made of the Agency and he thought this was a good thing. I said he was entit to his opinion but that the pertinent issue at the moment was to answer his question as to why he was not a member of the Career Staff and that when we had closed that bridge we could discuss other matters. He said he had assume that when he did not get Career Staff status, they were trying to get rid of him. I indicated that this was probably correct.	25X1

At the DCI's meeting pointed out that the selection out cases were now getting numerous and that everybody at the meeting should be aware that these contained numerous problems. I then mentioned that CONG. SIMPSON's office had called about the case of and that
on that had been prepared for the President's Board and the Director said to release it. I pointed out that the Director's concern about the political implications of the report on would be much more serious 25X if this were a Congressional watch dog committee and that this should be carefully considered before agreeing to MANSFIEID's proposal. I asked the DCI if he thought the reply on Recommendation #4 of the Baker Committee
DCI if he thought the reply on Recommendation #4 of the Baker Committee couldn't be handled by vote slip. He agreed. I pointed out the latest development in the case. I reported that had set up for us 25% meetings with and the who were being brought 25% [CEN. CABELL said he did not feel that Operation Alert gave us any clues for a reply on Recommendation #2 of the President's Board. I said that I agreed. He then went on to say that concerning the proposal on defectors, this material had been turned over to the Inter-Agency Defector Committee to prepare a paper.
CEN. TRUSCOTT and I discussed the preparation of the report on Recommendation #2 and he said was available to work with on this. We 25X then discussed who would run his office in his absence and he said that he considered co-equals and that they were under instruction to check anything out with either CABELL or myself in his absence.
I told WHITE that I would like to go to our time at an early date and he said he would make a note to LOGISTICS that next time a plane was going down, I would be advised. I also pointed out that I had not been to
called to pass on a report (which I believe came from the effect that a number of top newspapermen in Washington resented the lack of cooperation from CIA and the fact that a certain number of newspapermen seemed to have special registrations.

case. CABELL 25X1 objected to our memorandum on it saying that it did not identify as to why it was written and as far as he could see, contained very little in addition to that in the Director of Personnel's memo. He requested that we prepare memos on appeals from selection out cases only in those instances where there is an appeal and that we then indicate our recommendation for either upholding the selection out or upholding the appeal. He requested that in those instances where we found errors in procedure or activities of the Agency we put them in separate memoranda.

#### DIRECTORS' MEETING, 10 November 1958

Meeting started at 0915 in order to permit the DCI to keep a 1000 appointment in the White House.

The Director opened the meeting with a discussion of the TSS 25X1 supplementary appropriation request of which was approved by FRC some time ago. He said he was uneasy about TSS and questioned the desirability of having it appropriate funds for stockpiling. He was of the opinion that this was a poor practice since the users had no responsibility for it and therefore TSS could be placed in the position of acquiring equipment on its own authority which might never be used. This was debated by HEIMS and BISSELL without effective result. BISSELL admitted he had not yet taken over the management of TSS and had not thoroughly reviewed its R&D program. The DCI wanted to know what the Agency had to show for approximately spent by TSS in 25X1 R&D over the past five years. BISSELL and HELMS are to try to find out and discuss further with the DCI.

This led to a more general discussion of the results of the BOB 25X1 meeting last Friday. Apparently it was a most unsatisfactory meeting without concrete results. The net was that the Agency would be expected to take a cut of

A sour note was struck in the outcome of a private session between the DCI and SAMS. The Director said he made no commitments but according to MACY, SAMS was under the impression the DCI had agreed to substantial cuts. The Director announced his intention to speak to SAMS further.

There followed general discussion of some operational matters and the DCI left a few minutes before 1000.

A rump session took place with WHITE bringing up the matter of the budget again with some added comments on the Friday meeting. He also told of his conversation with the DCI on reduction of personnel. He said the Director was most positive on this score but would not commit himself to a specific objective. He does not want to order a percentage cut and won't decide on how much of a reduction he wants to achieve. WHITE took the position that there was a choice of only two methods; the arbitrary percentage cut (he spoke in terms of 2 per cent), or the manpower task force to study the situation and recommend ways of reducing the rolls. Another subject that was brought up at this session had to do with the speed up of communications to increase the flow of intelligence information from the Field. Both HEIMS and SHELDON agreed that what was first needed was a better method of screening the flow so that material of little or no significance could be eliminated before dissemination. Apparently there is a committee for this problem also

it 25X1

n

25X1

25X1

it was agreed that would be offered up as chairman in the initial stages of consideration of the substantive problem and would become chairman when the technical or physical stages were reached.

NOTE: One aspect of the DCI's method of handling these meetings disturbs me considerably. The subject of the TSS supplementary appropriation was brought up out of the blue. The sequence of events is rather easy to reconstruct. The DCI had a bad time with BOB, particularly on the size of R&D expenditures. The TSS proposal came to his attention thereafter and he siezed upon it as a matter for discussion at the meeting. He apparently didn't give the proposal much thought in terms of its own merits or as it related to the over-all R&D program. Those present were obviously unprepared to discuss the subject and the comments made by HELMS and BISSELL, with a small contribution by WHITE, were strictly from the top of the head and, naturally, defensive. What disturbs me most is that by this kind of action the Director precludes sound and thorough consideration of a problem by his principal officers and denies himself the good judgment they may be capable of offering.

COYNE and CASSIDY came over to report that at a meeting with GORDON GRAY yesterday GRAY had asked COYNE by what right GEN. CASSIDY had told a senior official of CIA what had been said at the President's meeting with the Board. GRAY said that Mr. DULLES had told him that one of the senior officials had been fully briefed on the meeting and had written a memorandum of it. COYNE said he told GRAY that it was his understanding that the Board kept the Agency fully informed and that he didn't think this was a violation of the privileged meeting. I read them both the preface to my memo on the meeting and told them that only Gen. CABELL and the Director had read it.

Meeting with EDWARDS, STEWART and HOUSTON on the subject of leaks occurring as a result of people talking too much to former employees. We agreed that a specific approach on this would probably not only not be effective but get in the press, but that perhaps a general statement by each staff would be useful.
